Commissioner for Patents

Alexandria, VA 22313-1450

I, John S. Paniaguas, Registration Number 31,051, am an attorney of record for the Applicant in the above-identified application and make the following declarations:

1. I prepared and filed a First Preliminary Amendment on October 30, 2003 cancelling claims 1-17 and adding claims 76 and 77. By way of a Second Preliminary Amendment, filed herewith, claim 76 has been cancelled and new claims 78-80 have been added. As such, claims 77-80 are pending and are all directed to a single invention.

2. I have made a comparison of the claims pending in the present application and a third-party machine, currently in use and, in my opinion, at least some of the claims are unquestionably infringed by the third party machine.
3. I have had a search of prior art conducted and have reviewed the references discovered in the search. In my opinion, none of the prior art references disclose an automated shipping machine as recited in the claims at issue. Accordingly, it is my opinion that all pending claims for the above-identified application are allowable over the references of record.
4. I further declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1002 of Title 18 of the United States code, and that such willful false statement may jeopardize the validity of the application or any patent issued thereon.

FURTHER, DECLARANT SAIETH NOT.

IN WITNESS WHEREOF, I have signed, sealed and delivered this Declaration this 7  
day of OCTOBER 2004.
